Hydrol-Tek International Sub. Plans Aggressive Trade Show Agenda for Fall 2008

Zephyrhills, FL – August 22, 2008 Hydrol-Tek International Inc. (OTC: HTIFF) and (Deutsche-Boerse: HY2) announced today that it's wholly owned subsidiary Hydrol-Pro Technologies plans a very active Trade Show blitz this autumn in the US.

Hydrol-Pro Technologies will be exhibiting at the following trade shows during the 'US show season' this fall:

October 19-21, 2008 in Reno, Nevada "American Biological Safety Association"

October 25-26, 2008 in Greensboro, North Carolina "American Association of Veterinary Laboratory Diagnosticians"

November 10-12, 2008 in Indianapolis, Indiana "American Association for Laboratory Animal Science"

December 8-9, 2008 in St. Petersburg, Florida "Animal Research Facilities, 2008"

"Hydrol-Pro is gaining recognition in the US and worldwide markets through various marketing initiatives. In the USA and in this scientific market space, many customers attend these trade shows connected with conferences to participate in the many technical sessions. It is one market that still heavily supports trade show attendance for networking plus improving their technical and commercial knowledge" states Hydrol-Tek VP, Kim Etherington. "As a result, our exhibit at these shows will raise the customers awareness of Hydrol-Pro and create numerous sales leads."

Hydrol-Tek International with its wholly owned subsidiary Hydrol-Pro Technologies Inc. has on-going projects and revenue in the Life Sciences and Veterinary College market in USA and Canada. Inquiries are now being received from foreign markets in China, Singapore, Mexico, Europe and India. The brand name for Hydrol-Pro's systems is BioMEER.
